PRODUCT CHANGE NOTIFICATION

ICR-2[78]00 Rev.2.0

Product Identification

Affected Products:

- This applies to the following v2i product families: ICR-2701, ICR-2734, and ICR-2834, all of which are non-WiFi versions.
- See the product revision number on the packaging box or the product label to identify affected routers. Affected routers have the product revision *Rev.2.0*.
- The router GUI can also display the product revision under *Status -> General -> System Information -> Product Revision*. Please note that the default revision (Rev.1.0) is not available here.

Change Description

Detailed Description of the Change:

- The motherboard has been modified to support the installation of the optional WiFi expansion board.
- **Note:** The initial WiFi versions of the mentioned products were released with the above-described versions of modified boards.

Anticipated Impact

Detailed Description of the Impact:

- All product parameters remain the same.
- The declarations related to the affected products will be updated but maintained to the same extent. Certificates will be available for download on the [Router Models](#) website.

Qualification Data

The new version of the product fulfills all internal quality requirements according to our Quality Management process and philosophy.
