PRODUCT CHANGE NOTIFICATION

ICR-2[0456]00(W) Rev.2.1

Product Identification

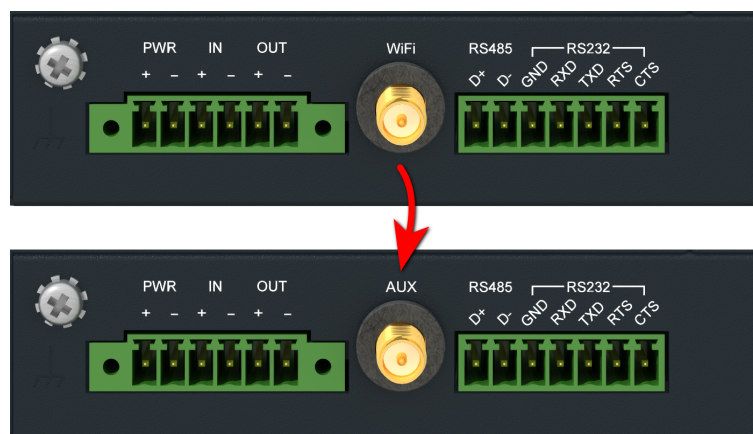

Affected Products:

- Applies to products from ICR-2000, ICR-2400, ICR-2500, ICR-2600 router families with WiFi.
- Products without WiFi remains unaffected.
- See the product revision number on the packaging box or the product label to identify affected routers. Affected routers have the product revision *Rev.2.1*.
- The router GUI can also display the product revision under *Status* → *General* → *System Information* → *Product Revision*.
- Please note that the default revision (*Rev.1.0*) is neither printed on the label nor displayed in the GUI.

Change Description

Detailed Description of the Change:

- The hole for the RSMA connector now labeled as AUX instead of WiFi.

Anticipated Impact

Detailed Description of the Impact:

- The reason for this change was the unification of chassis in the ICR-2000, ICR-2400, ICR-2500, ICR-2600 router families with WiFi or GNSS. Now, the same chassis will be used for both the WiFi and GNSS product versions.
- All other product parameters remain the same.

Qualification Data

The new version of the product fulfills all internal quality requirements according to our Quality Management process and philosophy.
