## PRODUCT CHANGE NOTIFICATION

### Rogers Certification

#### Product Identification

SmartFlex SR305

#### Description of Change

**Detailed Description of Change:** *SmartFlex SR305* router has earned certification for use on Rogers Wireless networks. This means that these routers with FW version 6.1.5 are certified by Rogers, Verizon, AT&T and T-Mobile USA. Please note that *SmartFlex SR305* with older FW can not be operated on Rogers networks! If you have a router with an older FW, you can upgrade to version 6.1.5. This firmware can be downloaded on Engineering Portal from this address:

<http://www.ep.advantech-bb.cz/products/detail/sr305#firmware>.

**Reason for Change:** To meet the requirements of the NAM market customers.

**Anticipated impact on Fit, Form and Function:** There is no physical impact on the product itself. The only change is in the Rogers database.

#### Qualification Data

The new version of the product fulfills all internal quality requirements according to our Quality Management process and philosophy.
